

who uses AI?

to what extent?

what can we gain?

# Gen-AI at WUT

## Creative Revolution

Help us discover the potential of generative artificial intelligence (Gen-AI) and implement good practices! In the **Kreatywna Rewolucja: Analiza Możliwości na PW** project (Creative Revolution: Opportunity Analysis at WUT) anyone can join, regardless of employee group. **How?**

ChatGPT, MidJourney, Copilot

**STEP 1: until 30.04.2024**  
**participate in the**  
**survey » link**

**STEP 2: join the**  
**group on MS**  
**Teams » link**

We set an ambitious goal for Warsaw University of Technology to play a leading role in the use of generative AI models. **In the project** we plan to:

- » Learn about the needs of the WUT community in the use of AI tools
- » Map AI specialists and professionals at our University
- » Explore University's readiness to use Gen-AI

As part of the project **we will purchase access** to selected AI tools. We will collaborate with pioneers, test and experiment. The result will be also a catalog of good practices.

**Don't miss next stages of the project!**

The project is funded under the program CyberDEMO within the Priority Research Area Cybersecurity and Data Analysis, Excellence Initiative – Research University WUT (IDUB PW).
